## SPECIALISTS IN BIOPHILIC DESIGN

We create strong connections between nature and the indoor environment

### BYNATURE VISION

Nature plays an essential role in our lives by improving our wellness, happiness, health, and even our productivity. Yet, while we spend 85% of our time indoors, there is still an increasing lack of nature in our living spaces.

ByNature believes that any space could be transformed into a healthy living environment. We aspire to bring nature into everyone's lives by creating an experience for people to enjoy, breathe, and feel good.

### BYNATURE MISSIONS

Whether small scale, large scale, living or preserved, ByNature's team of passionate people are dedicated to using their knowledge of biophilic design principles to liven your home or office space.

ByNature's vision, however, could not happen without its growing network of visionary partners (architects, designers, landscapers, engineers, and creative visionaries alike). Together, we bring our unique expertise to the table to promote, educate and innovate by creating and sourcing new leading-edge technologies that make your living space a better place.

ENJOY. BREATHE. FEEL GOOD.

Available in: green // Length: 27 in //

Bunch weight: 7 oz

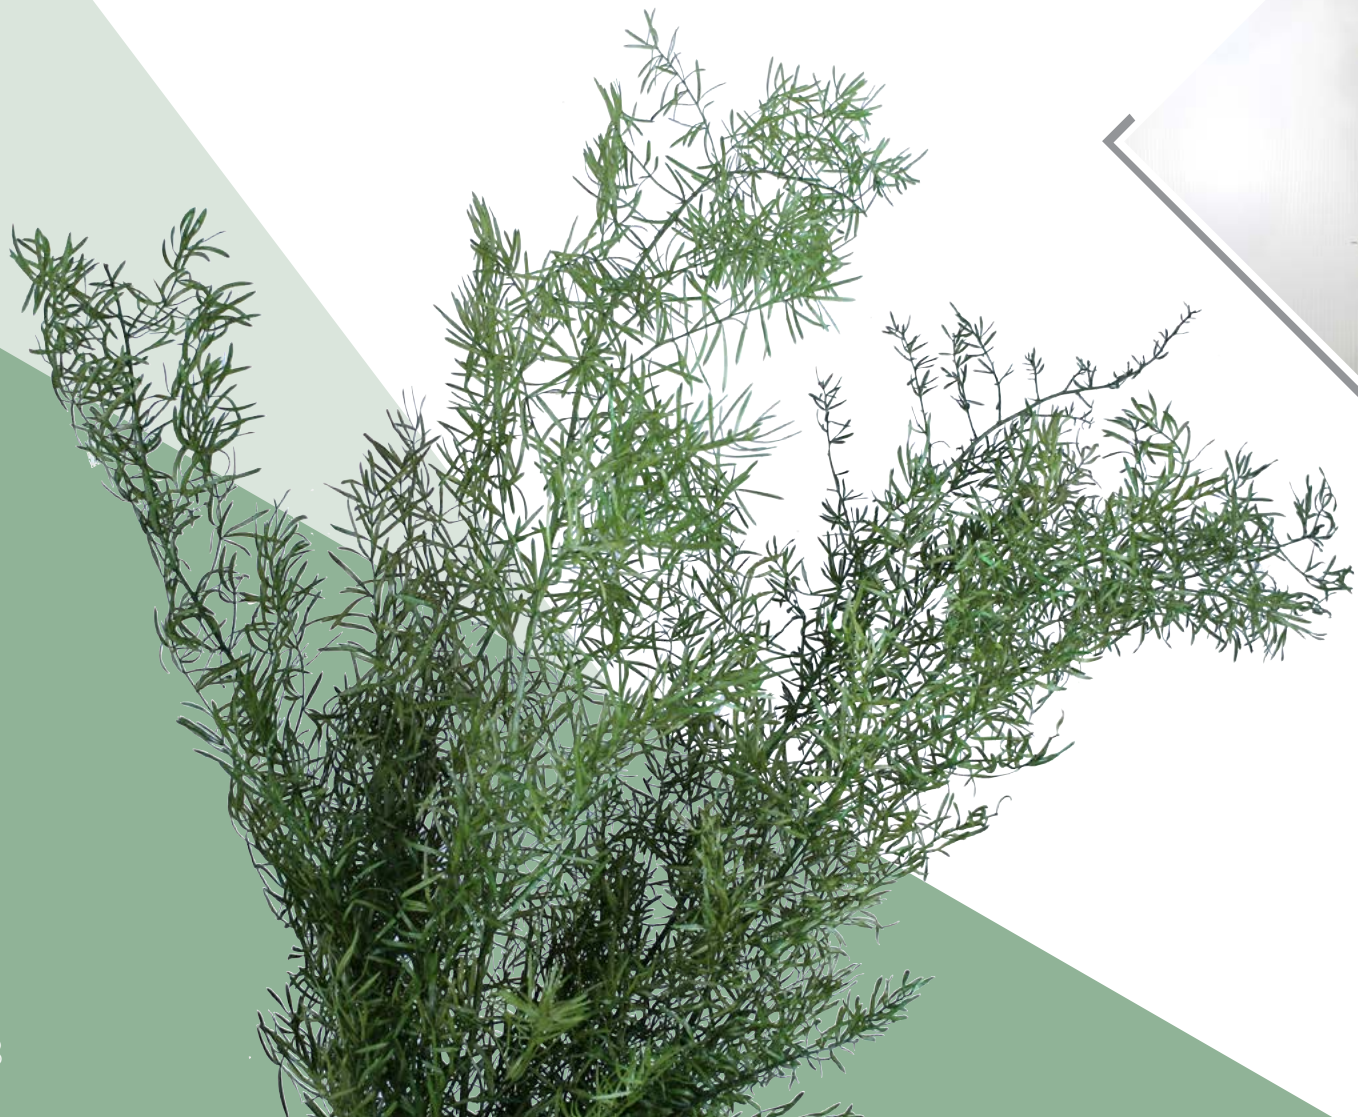

# ASPARAGUS SPRENGERI

Available in: light green // Length: 22 in //

Bunch weight: 3.5 oz

# BARBA

Available in: green and red //  
Length: 30 in // Bunch weight: 7 oz

# BEAR GRASS

Available in: dark green and green // Length: 26 in //

Bunch weight: 3.5 oz

## BRIGHT GRASS

Available in: light green // Length: 40 in //

Bunch weight: 3.5 oz

# BUXUS

Available in: green // Length: 27-32 in // Stems: 4-6

# CHESTNUT OAK

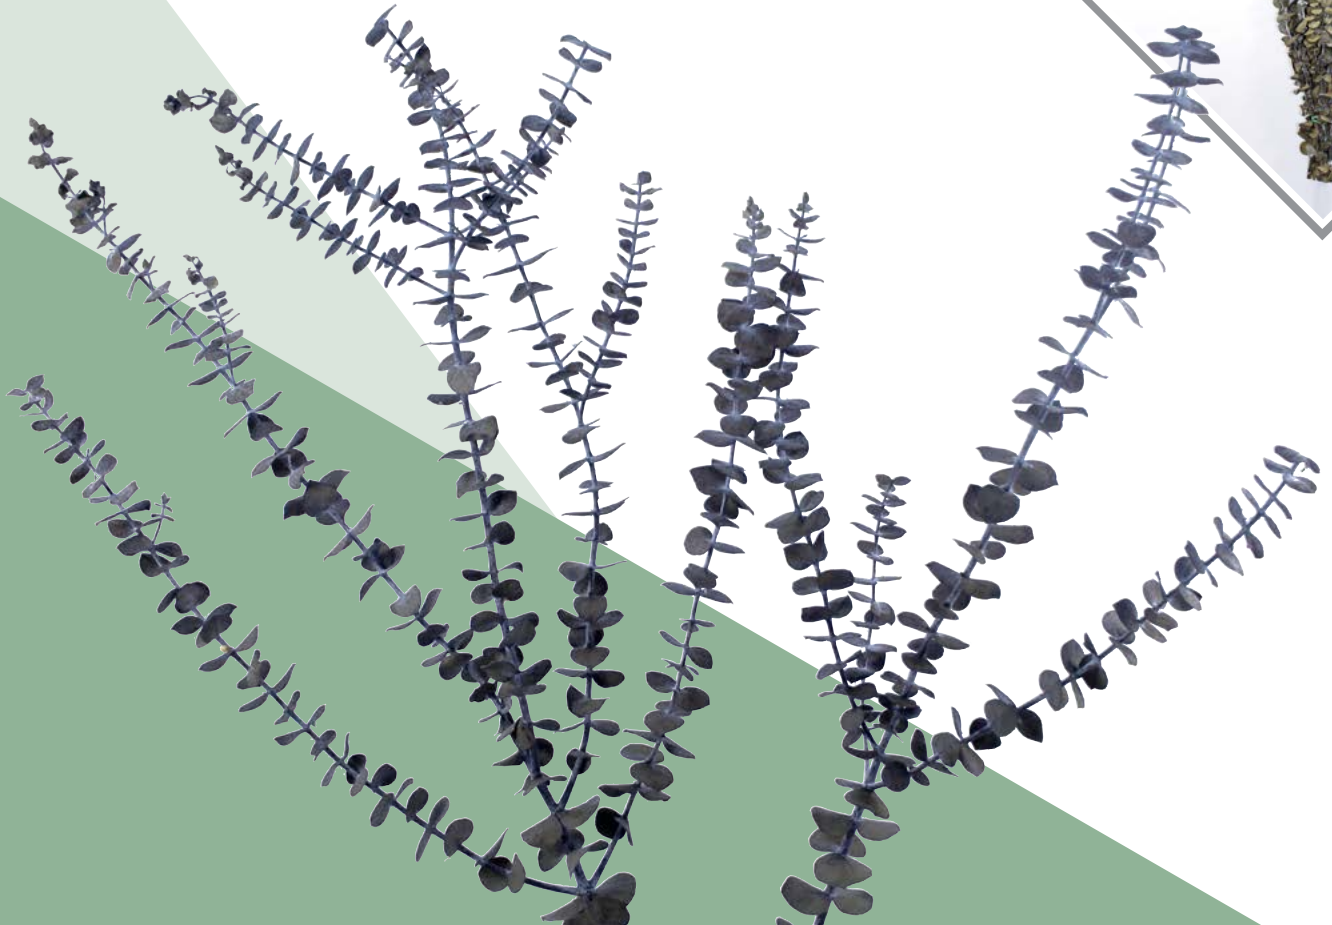

Available in: green // Length: 23 in // Bunch Weight: 5.2 oz

# FUCALYPTUS BABY

Available in: brown // Length: 31 in // Stems: ~5

# EUCALYPTUS CINEREA

Available in: red, blue green and brown //

Length: 25 in // Stems: 8

# FUCALYPTUS GUNNY

Available in: green // Length: 23 in // Stems: 6

# EUCALYPTUS NICOLY

Available in: green and red //

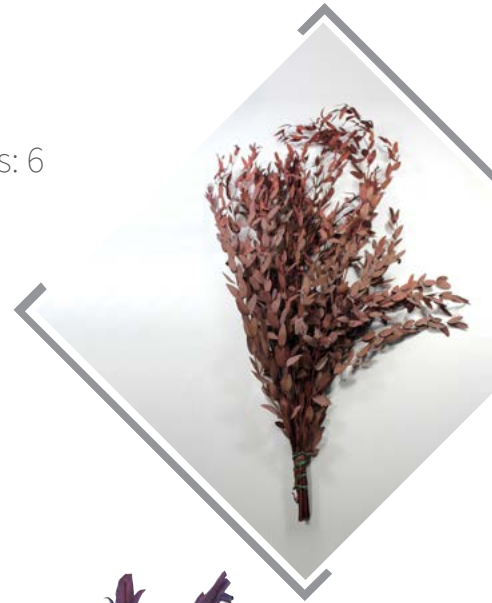

Length: 25 in // Stems: 10

# FUCALYPTUS PARVIFOLIA

Available in: green and red // Length: 25 in // Stems: 6

# EUCALYPTUS PENDULA

Available in: green // Length: 55 in

# FUCALYPTUS POPULUS

Available in: red and green // Length: 25 in // Stems: 4-5

# EUCALYPTUS STEWARTIANA

Available in: green and autumn  
// Length: 25 in // Stems: 3-4

# FAGUS

Available in: green, red, yellow and autumn //

Length: 30-40 in // Stems: 7-8

# IVY

Available in: green - with or without  
fruits // Length: 20 in // Stems: 6-8

# LYCOPODIUM VINE

Available in: green // Length: 50 in // Weight: 5.3 oz

# LYCOPODIUM VINE PREMIUM

Available in: green //  
Length: 60 in // Stems: 5

# OAK

Available in: green // Length: 22 in // Bunch weight: 17 oz

## OLIVE BRANCH

Available in: green //

Length: 27 in // Branches: 5

# PHOENIX PALM

Available in: green // Length: 30 in // Stem: 1

## PALMYRA PALM

Available in: green // Length: 28 in //  
Leaf width: 14 in // Stems: 3

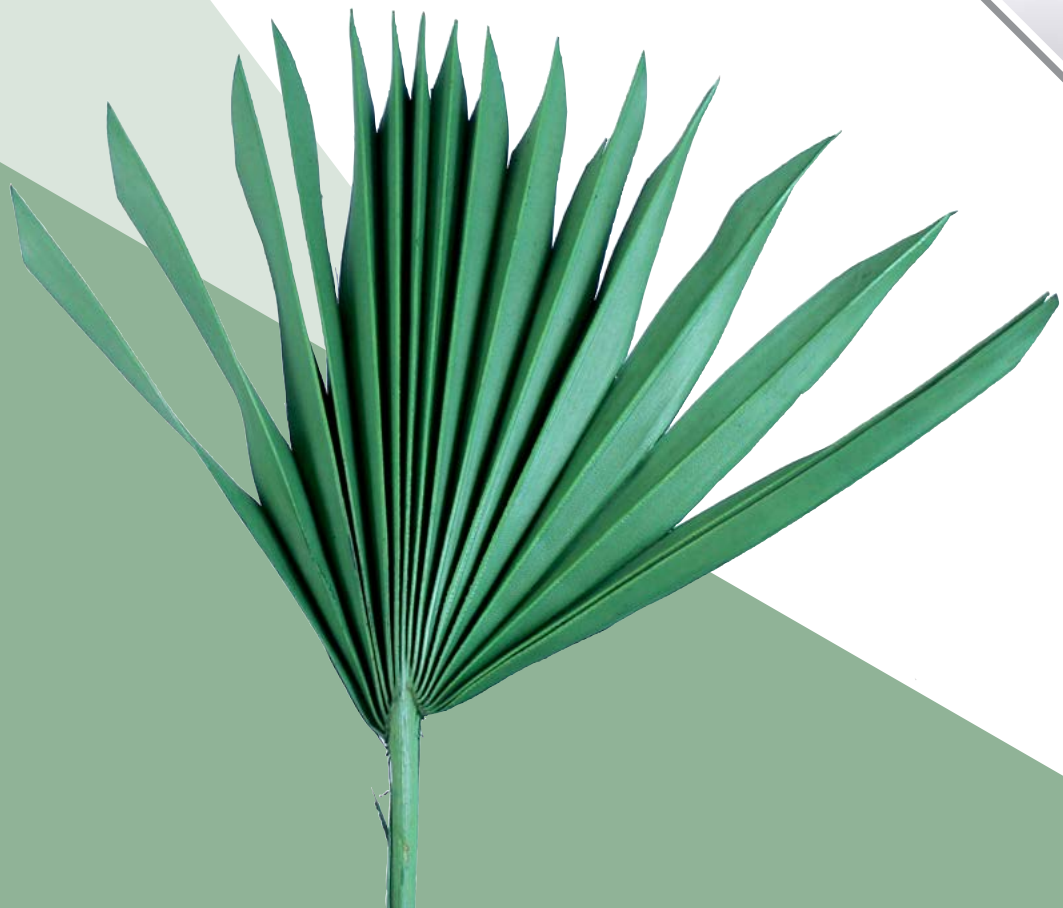

# PALM SUN

Available in: green // Length: 20 in //

Leaf width: 7 in // Stems: 6

# PAPYRUS

Available in: green // Length: 25 in // Stems: 5

# PITTOSPORUM

Available in: green and red // Length: 20 in // Stems: 3-5

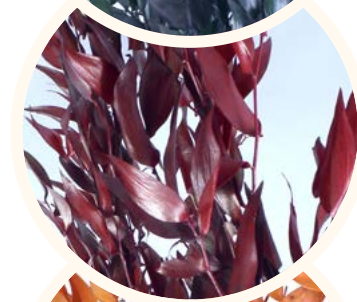

# ITALIAN RUSCUS

Available in: green, red, yellow, orange //

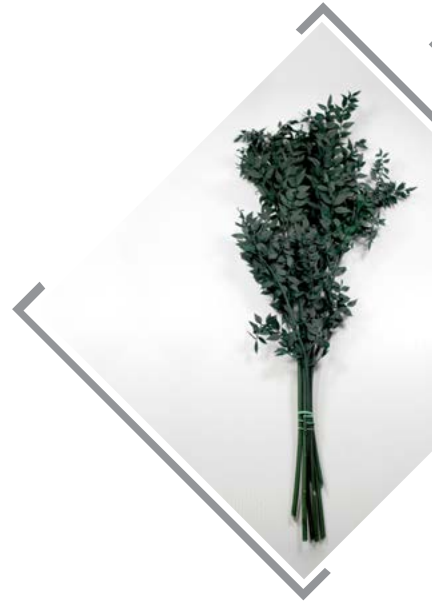

Length: 30 in // Stems: 6-8

# RUSCUS ACULEATUS

Available in: green // Length: 28 in // stems: 7

# RUSCUS HYPOPHYLLUM

Available in: light green //  
Length: 32 in // Stems: 10

# SALAI

Available in: green // Length: 20 in // Bunch weight: 3.5 oz

## TREE FERN

Available in: green // Length: 30 in // Stems: 4-6

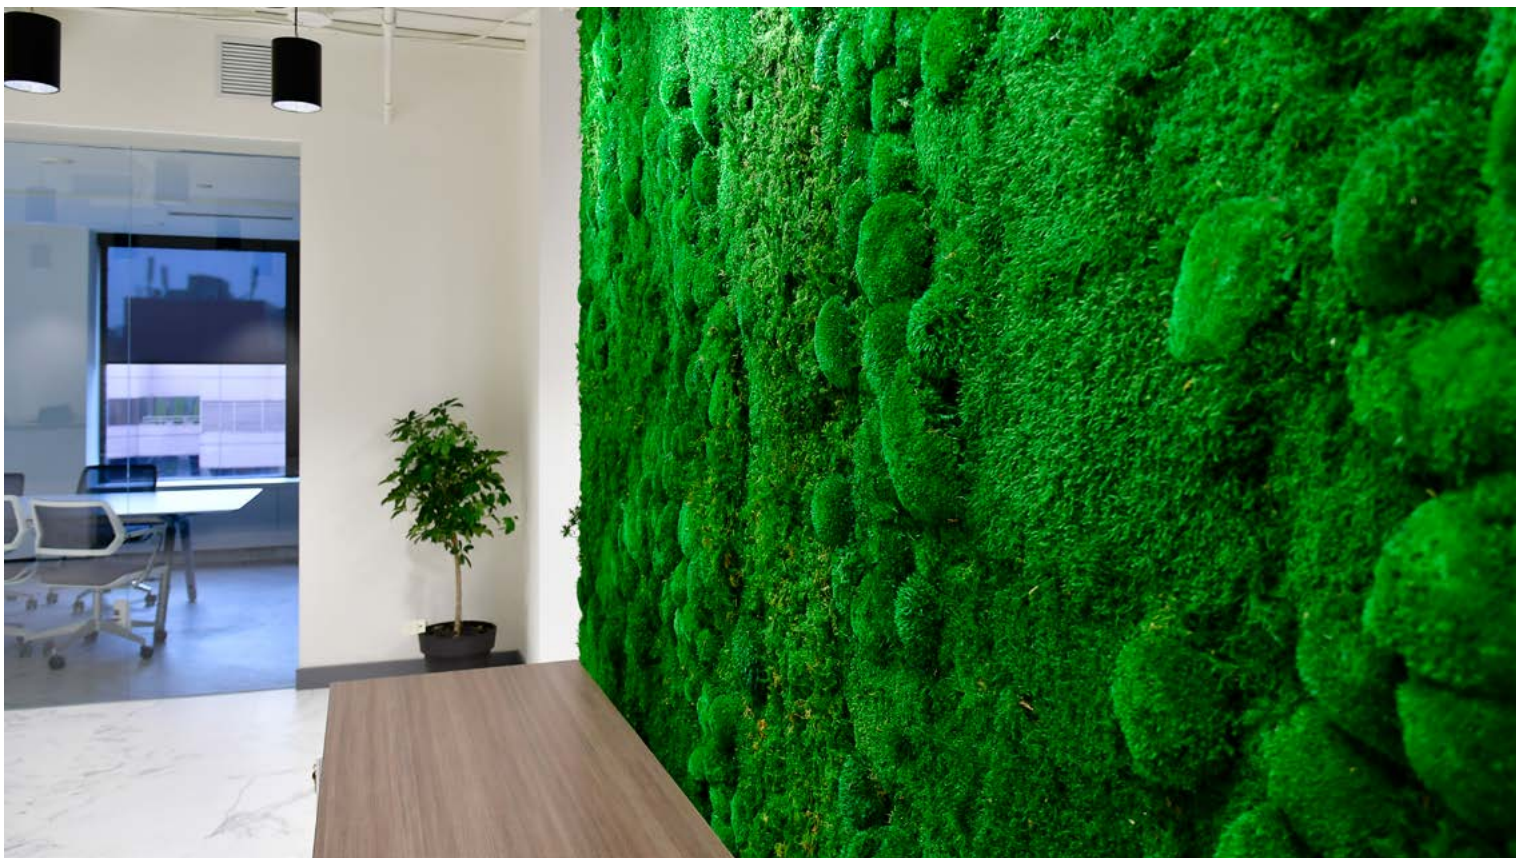

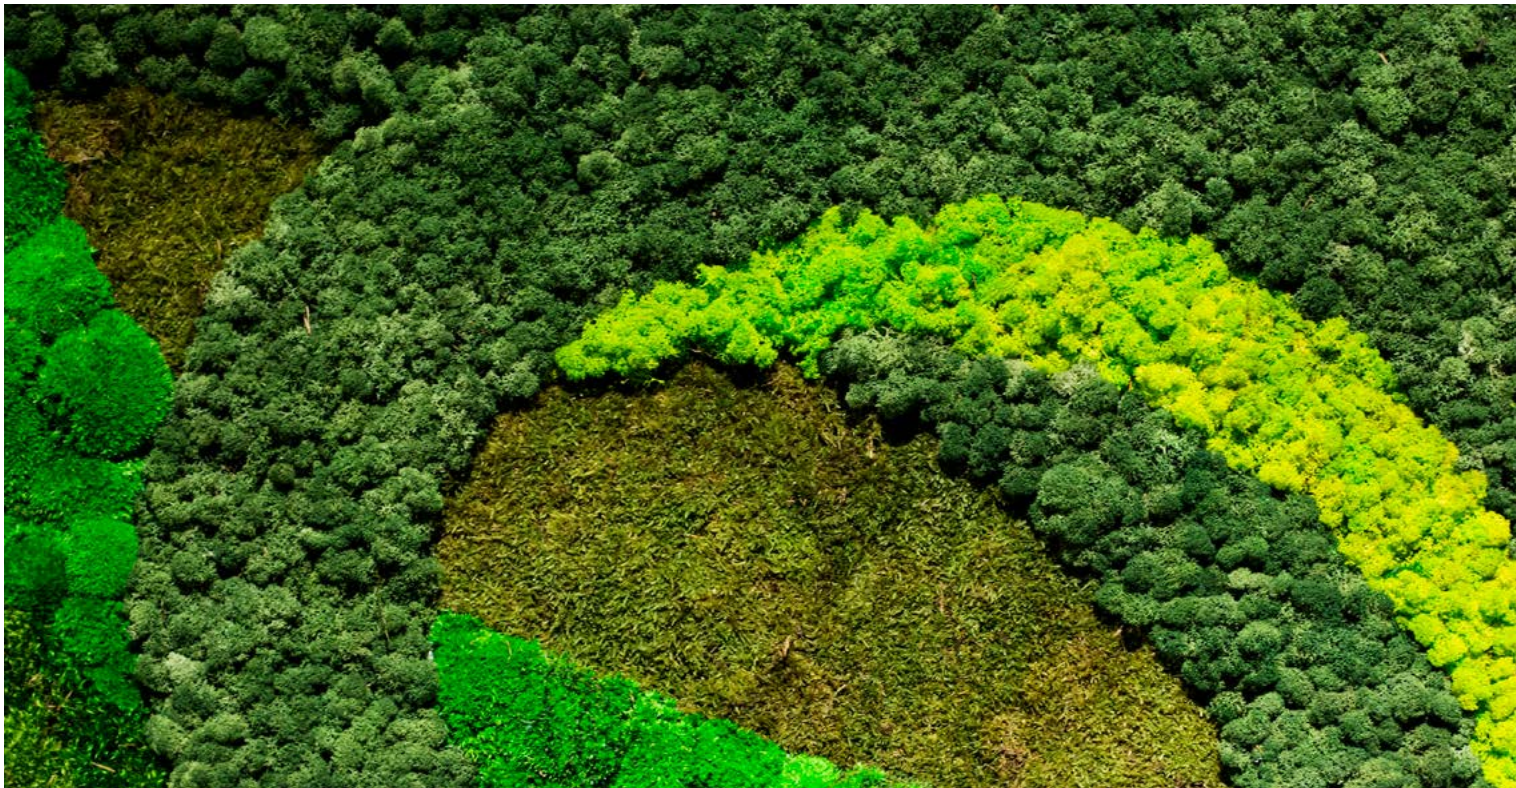

# THUJA

Available in: green // Length: 25 in // Bunch weight: 6 oz

# MOSSES

## WHAT IS A PRESERVED MOSS?

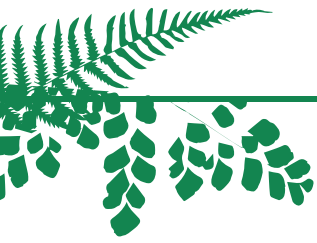

Mossart creations are made with 100% natural mosses that require no watering, light or trimming.

Harvested according to ecological practices, the moss is preserved by replacing the water in the plant with glycerine. As there is no longer any water in the plant, it will never dry out and will maintain its natural texture.

## HOW TO MAINTAIN A PRESERVED MOSS?

Mossart is an indoor-use product only and its softness may vary according to the relative humidity of the room. In the case of a very dry environment (below 30% humidity), the moss may dry out but you will find that it will become soft again if placed in a room with proper relative humidity or when the relative humidity goes back to normal. This variation is usually related to the season. A relative humidity considered as “normal” is usually between 45 and 65%.

When soft, the moss should never be watered or sprayed. Be aware that the “softness state” of the moss does not change its look, it will always look green, fresh and natural. You will experience a natural scent for a few months, which will progressively fade. The Mossart product should never be placed in direct sunlight as the colour may fade. If required, the moss could be carefully dusted using a blow dryer on a low temperature setting.

# REINDEER MOSS

Available in 18 colours // Thickness: ~5 cm // Box weight: 9 lb // Bag weight: 1/2 lb or 4 oz or 2oz

Dark Green

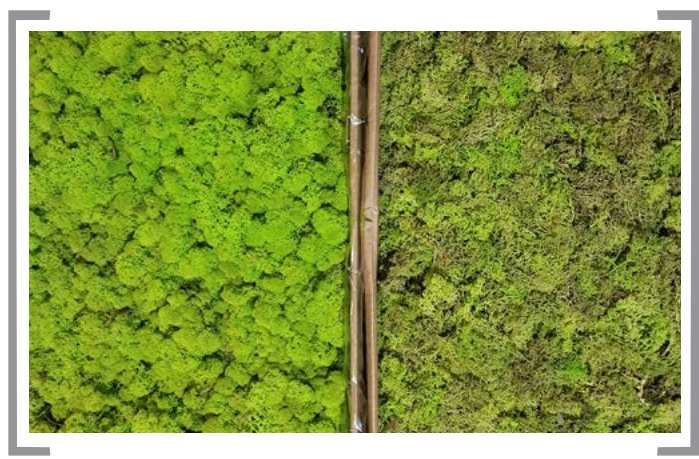

## 2 TEXTURE OPTIONS

Grade A (left): higher quality using only the top part of the moss
